DETAILED ACTION

Claims 6-14 are under consideration in this application.

Claims 15-31 are held withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142(b).

Election/Restrictions

Applicant's election with traverse of Group I in the paper filed January 22, 2004 is acknowledged. The traversal is on the ground(s) that the search would not be burdensome on the examiner to search Group III. This is not found persuasive because for the reasons set forth in the Office action mailed January 8, 2004. The compounds of Group III are not produced in the process of Group I. Further, applicants have failed to advance any cogent reasons as to why the inventions are not patentably distinct.

It is too burdensome for the examiner to search all of the previously noted searches in their respective, completely divergent, areas for the non-elected subject matter, as well, in the limited time provided to search one invention.

The requirement is still deemed proper and is therefore maintained.

Priority

Applicants are requested to update the status of the parent application, Ser. No. 09/722,876, on page 1 of the specification. Cooperation herein is appreciated.

This application is in condition for allowance except for the presence of claims 15 to 31 an invention non-elected with traverse in the paper filed January 22, 2004. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this

Art Unit: 1625

period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

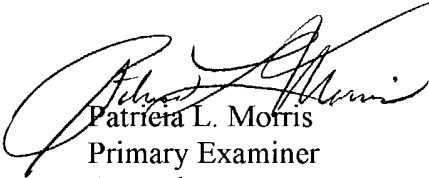

The prosecution of this case is closed except for consideration of the above matter.
